HARGRAVE 108' RAISED PILOTHOUSE 'FREEDOM'

Bold, bright and uniquely laid out, the 108' Hargrave 'Freedom' addresses the needs of a couple who like to travel with small groups but entertain in large numbers. Adding to the growing Hargrave megayacht fleet, this yacht exemplifies chic sophistication at every turn. The interior décor speaks of an Upper East Side condo in New York City. Fierce reds and rich earth tones nicely complement the eye-catching Brazilian rosewood with a contemporary satin finish found throughout.

This 108' raised pilothouse model carries the traditional lines of the Hargrave signature line, but with a twist. The first of its kind in the Hargrave fleet, this yacht was built with a tender garage. This innovation gave the owners a huge flying bridge perfect for soaking in the sun and entertaining very large groups, as no space was sacrificed for storing the tender. Forward on this deck, three specially made helmsman's chairs on the port side are supplemented by a forward looking guest sofa on the starboard side, with two large 'L' shaped sofas behind. Even with this there is still plenty of space for the provision of large sunloungers at the aft end of the deck. While underway, the yacht also has the space onboard to stow two jetskis on the flying bridge, with the tender safely stowed in the garage.

The lower deck space was organized to allow room for the tender garage while still offering a large master suite and two nicely appointed VIP cabins, both furnished with the rich Brazilian rosewood to give them a particularly warm and relaxing feel.

At Hargrave Custom Yachts you don't have to change your lifestyle to fit the boat you build, you build a boat around your lifestyle, giving 'Freedom' a whole new meaning. Each yacht has a story, and this one describes a life filled with sophistication, relaxation and especially fun, which is just what the owners ordered.
